

## Product Overview: Luthers Werke (Weimar Edition)

Martin Luther (1483-1546) is one of the central figures in the development of European cultural and intellectual history. This is as a result of not only his theological influence but also his contribution to the development of New High German. The complete Weimar Edition of Luthers Werke is an essential tool for theological, historical, philosophical, linguistic and literary research.

### Luthers Werke

The complete collection of Luther's writings is one of the largest editions of any individual author ever to have been created. This monumental work, of which the first volume was published in 1883, consists of 117 volumes. The **Weimar Edition of Luthers Werke** provides an indispensable historical-critical tool for theologians, historians, linguists and literary critics carrying out research into Luther's life and work.

The database **Luthers Werke** represents the electronic reproduction of Luther's works as published in the Weimar Edition.

### Indexing for Luthers Werke

**Luthers Werke** is a full-text collection, making available the complete Weimar Edition of Luthers Werke. The entire content is searchable; in addition specific indexing makes it possible to specify searches for:

- **Keyword**, fully browsable to help identify spelling variants, e.g. kirchenamt vs. kirchenampt
- **Greek Keywords**, browsable and searchable by entering their Latin transliteration, e.g. type criston to receive *Χριστον*
- **Volume** (within the Weimar Edition), browsable
- **Date of composition** (1509 – 1985)
- **Language** (German, Latin, Mixed)
- **Material** (texts by Luther or editors)
- **Content** (Main texts, Authorial Notes, Editorial Comments, Corrections, Variants, or Biblical Reference)
