

Product Tour: PressDisplay

ProQuest Information and Learning is a global leader in collecting, organizing and distributing value-added information to researchers. **NewspaperDirect PressDisplay** provides online access to today's newspapers from around the world in full-color, full-page format.

Welcome to NewspaperDirect PressDisplay!

We suggest you begin exploring our service by following these steps:

1. Selecting a Newspaper
2. Selecting an Issue
3. Navigating Pages
4. Searching
5. Article Delivery
6. More Information

To access PressDisplay, follow the links on your library web page or consult your librarian for instructions.

1. Selecting a Newspaper

Use the right menu Newspaper tab to select a title for viewing.

By Country

- Newspapers are sorted by country of publication. Select a country name and available titles are listed in left panes.

By Language

- Newspapers are sorted by the language in which the content is written. Select a language and available titles are listed in the left panes.

Alphabetically

- Newspapers are sorted by the first letter of the publication name.

2. Selecting an Issue

Current Issue

- Clicking a newspaper title from any list automatically opens the most current issue for the paper.

Previous Issues

- Once a newspaper has been selected, a Calendar menu with the current issue's date appears at the top of the screen.
- Select the Calendar menu and choose any date with black numbering. A 60 day archive is available for most titles.

Unavailable Dates

- If an issue is unavailable for a date, consider whether the publication might be listed under a separate name for weekend vs. weekday publication. You may be able to find a related title on the country/language/alphabetical list to the left of the calendar.

3. Navigating Pages

Viewing Pages

- Use numbered tabs at page corners to turn the page forward or backward through the issue.
- A Thumbnails tab on the right previews each page of the issue. Click any thumbnail image to jump to that page.
- At the bottom of the screen, you can toggle among several viewing modes: one-page, two-page, or all thumbnails.

Zooming

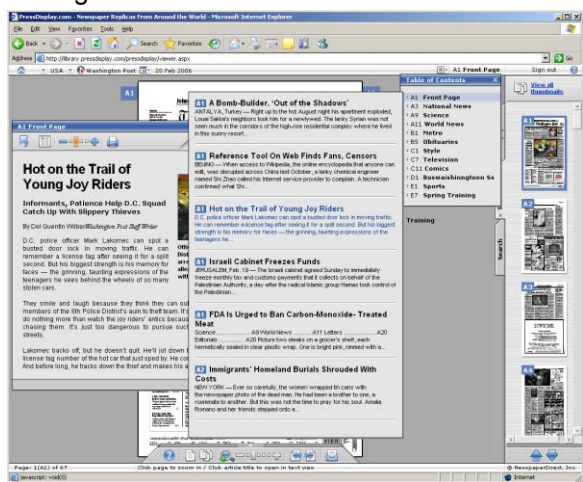

- Click on an image to zoom in. (You can also select the magnifying glass at bottom of screen. Additional magnification levels are also available here.)
- Click and drag to move the zoomed area. (You can also click and drag the orange box on the thumbnail to the right.)
- To turn off zoom mode, click the magnifying glass at the bottom of the screen (or the x at the top corner of the enlarged image).

Smart Navigation

Not all newspapers offer Smart Navigation. When available, additional navigation includes:

- Table of Contents. Jump to any article by clicking the title. (Found on the top menu bar, right side.)
- Text View. Accessed via the table of contents, or from the image by clicking a highlighted article title. A new window is displayed showing a text, rather than image, view of the article.
- Article Jumps. Quick links to article continuations are available from both text and image views.

4. Searching

The right menu in PressDisplay offers a Search tab where you can enter simple keyword queries.

Ex.: Find references to Iraq in today's issue of the Washington Post.

1. From the PressDisplay home page, select the Newspapers tab and sort titles by Country, selecting USA.

2. Scroll through available papers, and select *Washington Post*. The current issue opens automatically.
3. Select the Search tab on the right, enter the term Iraq. Run the search.
4. Pages containing the word Iraq are listed below the search. Click a page to view. (Word matches are highlighted in red within the image.)

NOTES:

- Searches can be run across any issue, but it is not possible to search multiple issues or papers in a single search.
- In addition to article text, words may be found in advertisements, image captions, listings for stocks, TV, or sports, etc.
- Only single keywords or short phrases are accepted. No Boolean operators, truncation, stemming or other advanced search functionality is supported.

5. Article Delivery

Email

- An email option is available at the bottom of each newspaper image view. Fill out the form entirely. A durable link to the page is delivered.

Printing

- Printing of images is not supported in PressDisplay. For Smart Navigation papers, a print option is available within the article Text View.

Translation

- For Smart Navigation papers, a translation option is available within article text views. Up to ten translation languages are supported.

6. Where to find help

In North America:

- **Technical Support**
Phone: 800-889-3358
Email: tsupport@proquest.com
Web: <http://proquest.com/techsupport>
- **Search Assistance**
